October 2025 - Present (11 months)

Gedung TC/EIC Lantai 3, Kampus PENS, Jl. Raya ITS, Keputih, Sukolilo, Surabaya, Jawa Timur 60111

Onlenkan.com

Full-stack Developer

January 2023 - May 2023 (5 months)

Probolinggo, East Java, Indonesia

Five incredible months as a Fullstack Developer at Onlenkan.com have come to an end! This was a profoundly enriching experience where I had the golden opportunity to contribute directly to dynamic web projects. My primary focus was becoming proficient in Laravel, but I also actively applied and enhanced my abilities in HTML, CSS, PHP, and JavaScript. It felt great to see firsthand how the code I wrote helped transform ideas into tangible digital products. This internship wasn't just about learning, it was about passion and the spirit of creating new things in the tech world.
